SERVICE REPORT

VESSEL NAME	SAGAR VIOLET	LOCATION	KORFAKKAN ANCH	ENGINEER	RAJESH R
PIC	JERIL	IMO	9292981	DATE	06/005/2022
EQPT	INSPECTION	MAKE/ MODEL	IT AND V SAT	SL NO	

A. Fault Reported B. Observations Made C. Action Taken D. Result E. Recommendations F. Follow up (Y/N)

- A. Pre inspection for the kvh v sat and vessel it job scope
- B. Have found existing LAN setup and running v sat fx hardware.
- C. Reported to the master. Checked vessel current status of v sat and networking setup found still vessel is using v sat sailor fleet xpress and system is running now online. Also fbb 500 backup. Checked the LAN connections found vessel is using dedicated switches for the LAN network also LAN phones are using separate ports. Current network is running through a server proliant ml110 in upper deck office meeting room. Vessel have 3 routers found ip address 10.0.0.1.in 3 decks. Checked the vessel computers found 7 nos, bridge 2 pcs, master cabin, chief engineer cabin, ccr and ecr. currently all 6 systems are running with windows os. Bridge pc and master pc is running os windows 7 pro and all other computers are running windows 10. Also need to install Microsoft office in all computers currently master computer is activated with office 2013.also need to install all connected printers with driver software

For kvh v sat and certus installation -site inspection

Vessel currently using sailor gx antenna (fx rack) and we can use the same antenna mast for the kvh antenna also need some fabrication. The certus installation also same process we can use the sailor fbb 500 mast. but nee some fabrication also. And current v sat rack is running with the fx hardware.in radio room at bridge.

- D. Inspection completed. Need office in all computers and os need windows 10.
- E. Please inform any additional thing before installation processes.
- F. Yes.

Vessel current printers make and model:

cannon imageclass

mf 249dw,mf 4570dn,mf 45bdw,mf 215,mf 249dw and hp deckjet 2130.
